

RHP call to prayer for victims of conflict

We represent concerned Christian people who have been working together with (and for) the forcibly displaced for over 20 years, during which time we have seen that number increase dramatically (from 20 million in 2001 to well over 110 million today).

We are deeply concerned about the impact of conflicts on ordinary people, from Afghanistan to Yemen, with so many others (many forgotten) in between. Although we are hesitant to comment on individual conflicts, we feel compelled to appeal for particular and urgent prayer for the innocent children, women and men caught up in wars and conflicts.

Innocent children, women and men are suffering and dying. Each one is precious. Ordinary families are suffering untold pain. Please pray for these families.

God can intervene, as we cry to Him. Please do so!

In Christ,

The Global Leadership Team of the Refugee Highway Partnership
